

Webex Suite

Comprehensive hybrid work solution creating more equitable and secure collaboration experiences

We're entering a new era of hybrid work

Collaboration solutions are key to hybrid work success

Businesses are transitioning their workforce back to the office while accepting that some employees will remain remote. The result is a global workforce that is more distributed than ever before.

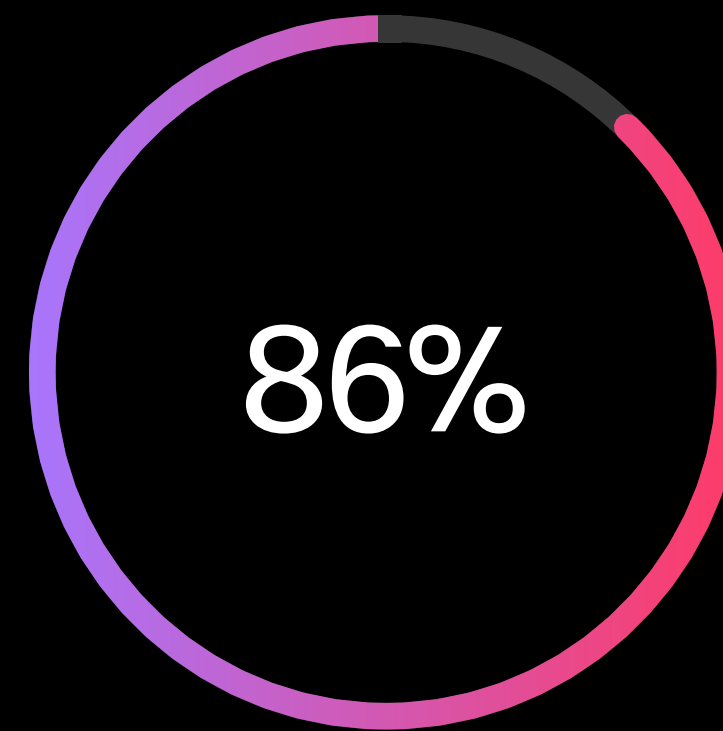

Industry experts like IDC report the growing requirement for collaboration solutions to bring together your contacts, messages, and assets in one place, on any device.

One solution works best

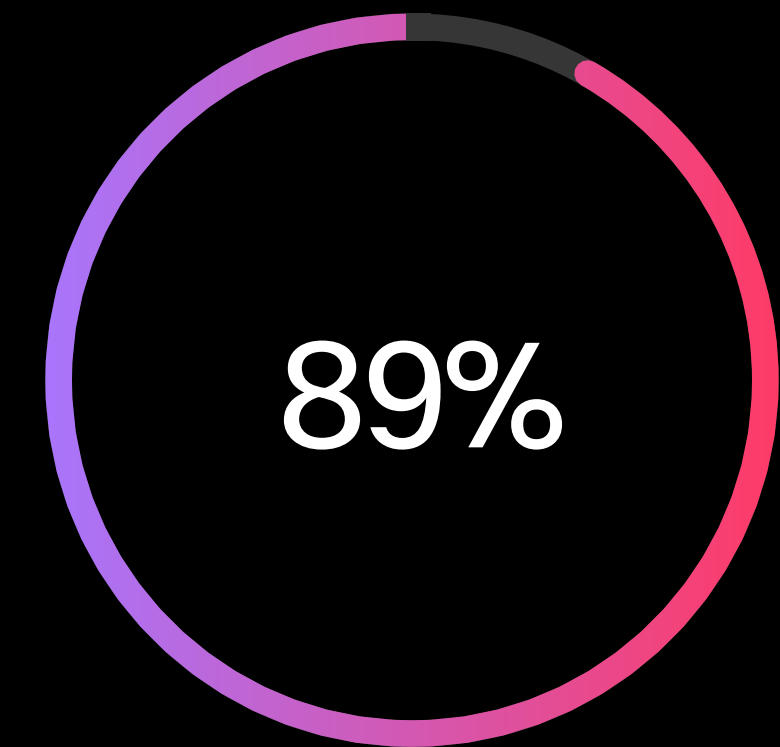

Organizations adopted multiple collaboration tools during the pandemic to ensure business continuity. The result was disjointed communication, additional IT administrative work, and increased security risks. Webex provides a host of solutions that work seamlessly together all while being backed by enterprise-grade security.

But the challenges of hybrid work are diverse and many

Of importance to global IT leaders:

Empowering distributed workforce with seamless access to applications and high-quality collaborative experiences.

Maintaining security, control, and governance across user devices, networks, clouds, and applications.

Webex Suite

Empowering your collaboration needs for hybrid work

Webex Suite is a comprehensive collaboration and communication solution for hybrid work, enabling inclusive experiences for everyone while protecting your data with industry-leading security. It provides calling, messaging, meetings, polling, asynchronous video, whiteboarding, webinars and event management in a unified experience across web, desktop and mobile apps.

Webex Suite addresses collaboration and communication needs of every type of business, while anticipating and accommodating future needs. It enables equitable and empathetic experiences for everyone, whether they work from the office, their home, or another part of the world. And it is backed by Cisco's industry-leading security and networking infrastructure that ensures the best quality video and audio communications.

Calling

Secure, reliable cloud calling

Transform your business with a modern cloud calling platform

Webex Calling connects users through a proven cloud platform used by over 45 million people worldwide.

Our enterprise-grade features, globally redundant infrastructure of 15 data centers, and end-to-end security, replaces aging premises hardware with an agile cloud platform that is always up-to-date, scales effortlessly, and is available in over 85 countries.

Webex Calling is available through the Webex App, Webex devices, Cisco phones, and our Webex Go mobile-first experience that brings Calling to the native dialer on your mobile phone. Hear every call clearly with our AI-powered Audio Intelligence tools that remove distracting background noise from calls.

Meetings

Hybrid-friendly meeting experience

Make real-time collaboration engaging, flexible, and inclusive

Drive better project outcomes by making collaboration more interactive and engaging with automatic noise removal, custom layout, immersive share, whiteboarding, and automatic transcriptions.

Increase employee productivity and optimize customer experience by hosting hybrid meetings from anywhere, at any time, and on any device. The highest business-grade security features ensure all your conversations are private and secure.

Break down communication barriers and ensure everyone feels heard with polling, Q&A, breakout sessions, and real-time language translation in 100+ languages.

Messaging

Keep workflows moving forward

Messaging that keeps everything in one place, connected with people, and on top of what matters

Always-on messaging lets you minimize meetings, organize your thoughts, and actively engage—how you want and when you want—in an intelligent space that's personalized to you and your work style.

With Webex, all your messages, contacts, files, content and projects are stored and organized in a secure space—so you never miss a beat.

Remove time barriers and silos that slow decision making and connect to all the people and business tools you need to do our job, from anywhere, anytime, on any device.

Ensure a work-life balance with intuitive features that help you set boundaries. Set a custom status to show what you are working on, or set do-not-disturb to show when you are unavailable. Improve company culture with engaging and interactive features like animated reactions, GIFs, and more, that let participants express their personality.

Polling

Make your meeting more engaging, interactive and insightful with Slido in Webex

Creating meaningful and memorable experiences that encourage participation from everyone

Interact with participants, whether in the office or remote, before, during and after meetings. Confirm participants' understanding of the meeting topics and address any areas of uncertainty. Streamline decision making by crowd-sourcing ideas from everyone and ensuring quick alignment on decisions.

Democratize discussions by allowing participants to view and upvote each other's questions. Empower everyone by creating a safe space for them to ask and answer questions anonymously. Improve decision-making by collecting feedback from everyone, not just the most vocal participants.

Facilitate team bonding by allowing everyone to get to know their colleagues and coworkers better. Create transparency across the whole company by enabling anyone to ask and answer questions. Build trust between leaders and employees by allowing them to ask any questions and address the most critical ones.

Webinars

Simplified webinars without compromising experience

Simplify webinar delivery with intuitive, engaging webinars that scale with your business

Host all-hands, trainings, earnings calls, marketing events and more with Webex Webinars. Reach global audiences at scale, create meaningful experiences, and deliver webinars with confidence.

Accommodate large audiences and reach more corners of the world. Real-time caption translation and audio translation with live interpreters make it easy to connect globally.

Spark engaging interactions with real-time audience feedback and shared discussion. Easily connect on specific topics in breakout sessions, encourage participation with live Q&A, robust polling capabilities, and animated reactions.

Simplify webinar management, practice before presenting, and set the stage for success. Customize the event registration to reflect your brand, bring presentations to life with immersive share, and utilize advanced attendee management and moderation.

Vidcast

Video messages on your time

Asynchronous video messaging tool that makes it easy to record, edit, and share short videos

With Vidcast teams avoid waiting days for calendars to align and can keep projects moving. Record personalized video messages to share team updates or create polished demos and how-to videos that can be shared time and time again—all without a meeting.

Vidcasts are widely shareable and can be viewed on any browser with a share link, embedded in a website or wiki, or by posting to a Webex space or top social channels like LinkedIn, Twitter, and Facebook.

Vidcast was designed to save teams time. Share a jump link or add chapters so viewers can jump straight to relevant content. Vidcasts have a default playback speed of 1.2x, giving viewers an immediate 20% time savings.

Creators can quickly get a sense for which moments are resonating with their audience with reactions. Viewers can share more detailed feedback with comments to keep projects moving asynchronously.

Whiteboard

Whiteboarding for anyone, on any device

Whiteboard allows everyone to create, contribute, share and collaborate from wherever they work

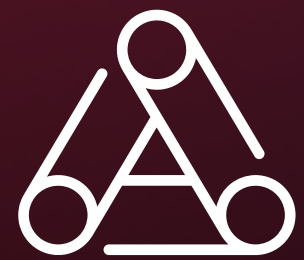

Webex Whiteboard provides teams with a single surface to collaborate on in real-time or at their leisure. Capture ideas, organize information, and provide feedback from any location.

Webex Whiteboard has access to all the tools you need to get started. On an infinite canvas you can add images, sticky notes, text boxes, ideate with different colored pens, and annotate on everything. Shape recognition tidies up your rusty drawing skills. Everything is right at your fingertips, and everything is simple and intuitive to use.

There is no one-size-fits-all when it comes to device preferences. You can work on your phone, laptop, tablet or Webex device, and the whiteboarding experience will be tailored for whichever device you are using. This way, no one is left out, and everyone can contribute from wherever they are.
